
Il Cubatore

The digital caliper
to measure the
volume of logs

Il Cubatore

Experts know, ...

... that when it comes to equipment, reliability and easy of use are fundamental.

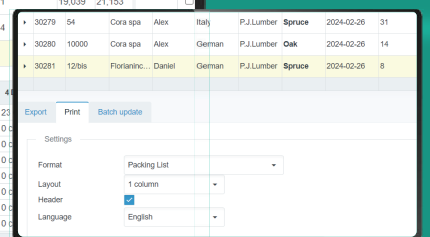

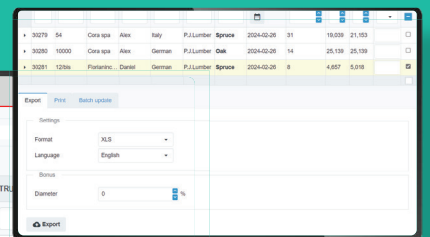

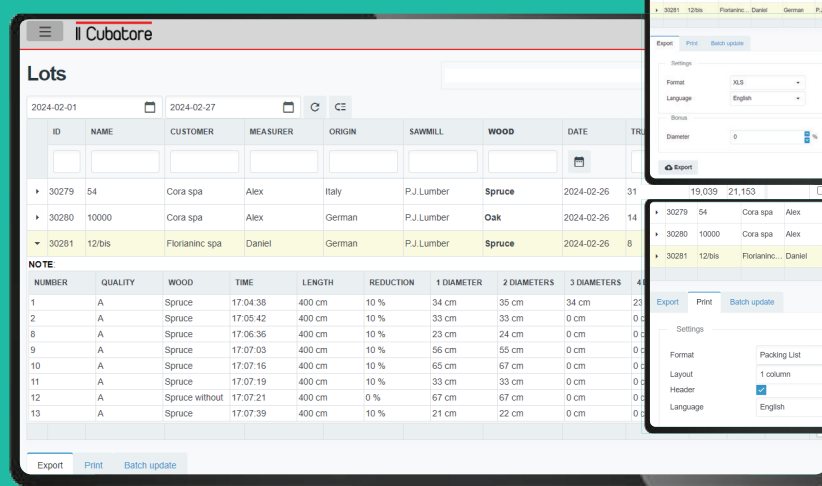

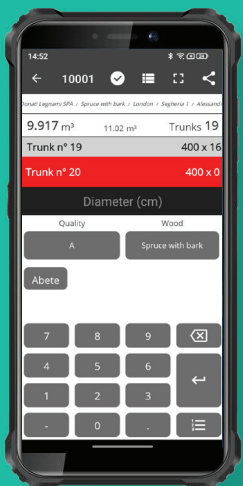

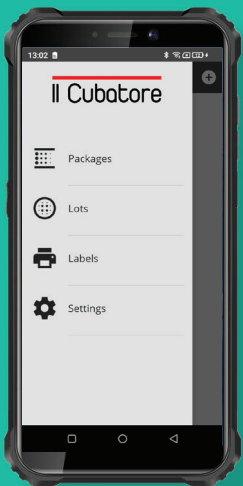

Il Cubatore from Infometrics is the best digital log cubing system for all professions in the timber industry.

Il Cubatore is not only a digital measuring caliper, a robust smartphone with arm holder and a user-friendly app, but also a smart office software to manage the measured data.

Measuring with il Cubatore saves you valuable time, eliminates errors and increases your productivity.

IT'S THAT SIMPLE:

- 1 Create a new task in the app
- 2 Measure logs with the digital caliper
- 3 m³ are automatically registered in the app
- 4 Synchronize measured data with office software
- 5 Print or export measurement lists

Reasons to work with
il Cubatore instead
of pencil and paper.
