

# Il Cubatore

**The digital meter**  
to measure the volume  
of boards

# Il Cubatore

$\frac{74^1}{2} \times \frac{1}{3}$   
Experts know, ...

... that reliability and convenience are the most important factors when it comes to tools..

**Il Cubatore from Infometrics is the best digital board cubing system for all professions in the timber industry.**

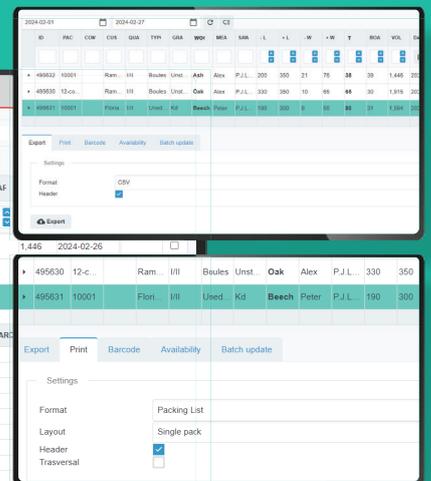

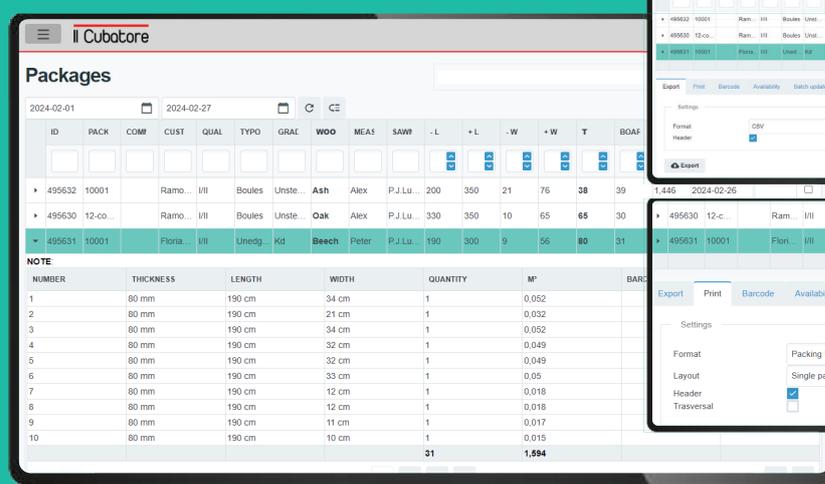

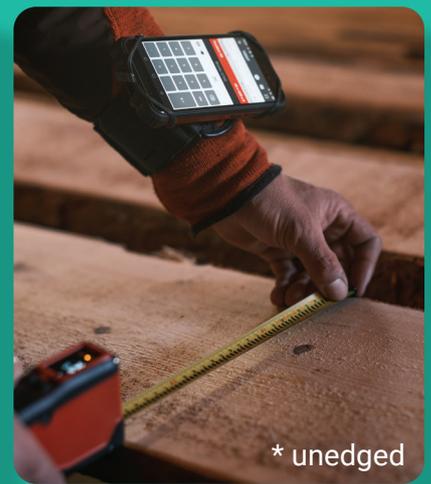

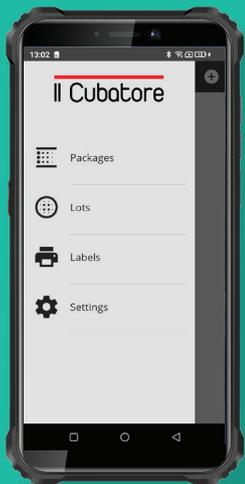

Il Cubatore is not only a digital measuring tape, a robust smartphone with arm holder and a user-friendly app, but also a smart office software to manage the measured data.

Whether boards, beams, strips or parquet - with uniform or different lengths - il Cubatore saves you valuable time, eliminates errors and increases your productivity.

$$\begin{matrix} 7 & 4 & 1 \\ 2 & & \times & 3 \\ \hline \end{matrix}$$

## IT'S THAT SIMPLE:

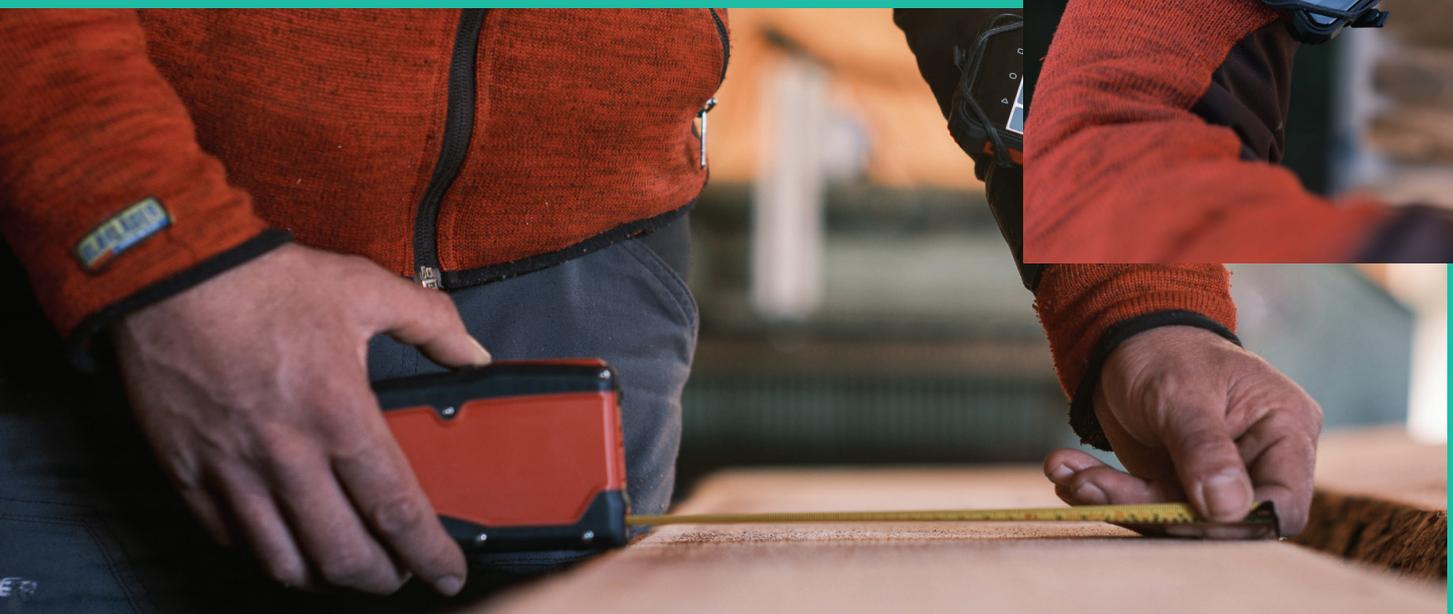

- 1 Create a new task in the app
- 2 Measure boards with the digital meter
- 3 m3 are automatically registered in the app
- 4 Synchronize measured data with office software
- 5 Print or export measurement lists and create barcode labels

Reasons to work with  
il Cubatore instead  
of pencil and paper.
